## **Technical Specifications**

| Handrail  |  |  |  |
|---|--|--|--|
| Finger-jointed handrail made of two (2) solid wood pieces laminated together (2-ply).                                   |  |  |  |
| The finger-joints number depends on the type of construction, the length, and the wood species selected.                |  |  |  |
| Product made in Beauceville, QC Canada.   |  |  |  |
| All Solid (AS): One (1) finger-joint on the top ply and the bottom ply.   |  |  |  |
| Solid Cap (SC): One (1) or two (2) finger-joints on the top ply. Bottom ply with multiple finger-joints (12" and over). |  |  |  |
| All finger Jointed (AFJ): Finger-joints every 30" on top ply; number depends on length. Bottom ply with multiple        |  |  |  |
| finger-joints (12" and over).   |  |  |  |
| Depends on the profile  |  |  |  |
| Depends on the profile  |  |  |  |
| Lengths are trimmed and billed per inches tally.  |  |  |  |
| Ex.: For a 10' long handrail, a 10.5" (126") handrail could be shipped and billed according to this length (126").      |  |  |  |
| Mixed or fixed lengths are available. Extra fees may apply.   |  |  |  |
| Length range : 6' à 9' / 6' à 16' / 10' à 16' for maple & red oak   |  |  |  |
| Red oak (Northern red oak), maple (hard maple)  |  |  |  |
| Select: Available in red oak and maple.   |  |  |  |
| Not sanded (available upon request).  |  |  |  |
| Thickness: ± 0.015"   |  |  |  |
| Width: ± 0.015"   |  |  |  |
| Humidity must be kept between 30% and 60% at all times.   |  |  |  |
| Square:   | Rectangle:   | Profiles:  |  |
